

UI/UX Designer with 2.5+ years of experience designing web applications, admin dashboards, and conversion-focused websites. Strong background in UX audits, user flow simplification, and end-to-end redesigns for complex business use cases. Experienced in handling direct client communication, translating business requirements into clear UX solutions, and collaborating closely with developers to ensure high-quality delivery.

Work Experience

UI/UX Designer

The Impact Engine

Pune

Oct 2024 – Present

- Led end-to-end UX redesigns for complex web applications by simplifying user flows through deep understanding of business models, customer journeys, and operational constraints.
- Led UX audits for multiple web applications by evaluating user flows, information architecture, and usability issues, and delivered structured, actionable improvement recommendations to clients.
- Redesigned poorly structured web applications from scratch, rebuilding information architecture and UI systems to improve clarity, usability, and scalability.
- Designed admin dashboards for loan management and service platforms, translating complex business logic into simple, role-based user experiences for non-technical users.
- Handled direct client communication independently, including requirement gathering, UX walkthroughs, design rationale explanation, and rapid solutioning for evolving business needs.
- Acted as the UX bridge between clients and developers by explaining design decisions screen-by-screen, resolving implementation doubts, and performing QA before final delivery.
- Applied CRO-driven UX principles to improve clarity, trust, and task completion across marketing and e-commerce pages.

UI/UX Designer

Anthill Networks

Bangalore

Apr 2024 – Sep 2024

- Worked on UX and UI design for AI-based SaaS products across web and mobile platforms.
- Conducted user research and usability testing to identify UX issues and opportunities for improvement.
- Created user flows, wireframes, and high-fidelity UI designs using Figma.
- Collaborated closely with developers to ensure accurate design implementation and usability consistency.

UI/UX Designer Intern

Buildfast.io

Delhi

May 2023 – Oct 2023

- Designed responsive web and mobile interfaces based on client requirements and business goals.
- Created wireframes and interactive prototypes to validate design concepts.
- Worked directly with clients to gather feedback and iterate on designs.
- Supported usability testing and design refinement for multiple client projects.

UI/UX Designer Intern

Weverve System

Pune

Feb 2023 – May 2023

- Designed UI screens for mobile and web applications focused on real-world user needs.
- Assisted in user research, wireframing, and prototyping activities.
- Gained hands-on experience in translating requirements into user-centered design solutions.
